

JOB DESCRIPTION

Post : Technical Officer (Valuation)
Tariff and Trade Affairs Directorate

Grade : A3

Main functions

The candidate will be expected to carry out the following duties :

- preparation of working documents and draft reports for the Technical Committee on Customs Valuation, including drafting and development of the agenda and communication with Members;
- development and delivery of capacity building and technical assistance programmes related to the WTO Valuation Agreement, including technical training and diagnostic missions;
- research and resolve complex technical questions and challenges faced by Members to assist in the implementation and application of the WTO Valuation Agreement;
- represent the Secretariat on valuation-related matters at meetings with governmental and international non-governmental organizations and the private sector;
- represent the Valuation Sub-Directorate on cross-cutting policy issues as appropriate.

The person appointed will also be required to perform such other duties as may be assigned and may be subject to reassignment within the WCO Secretariat.

Annex I

Qualifications

- A university degree or equivalent combination of professional experience, skills and knowledge relevant to the position.
 - The candidate will be expected to have comprehensive knowledge of the WTO Valuation Agreement and the functioning of the WTO and the WCO Valuation Committees, and a strong working background in the administration of valuation at national and international levels.
 - Applicants must be proficient in drafting and speaking in at least one of the WCO's official languages (English and French) and have a good working knowledge of the other. Knowledge of another language (written and spoken) would be advantageous.
 - The candidate should have the background and experience to be able to work independently, under minimum supervision, and also participate as a strong team member.
 - The candidate should have a good knowledge of computer applications.
